

# SENSORIO ADDS DATES FOR BRUCE MUNRO: LIGHT AT SENSORIO

NOW EXTENDED THROUGH JANUARY 2, 2022

PASO ROBLES, CA (16 July 2021) — Due to overwhelming public demand, **Sensorio** announces the extension of the stunning outdoor art exhibit **Bruce Munro: Light at Sensorio** through January 2, 2022. The immersive installation includes Munro's 15-acre *Field of Light*, an array of over 58,800 stemmed spheres lit by fiber-optics which gently illuminate the landscape in subtle blooms of morphing color, and the adjacent *Light Towers*, featuring 69 towers composed of more than 17,000 wine bottles illuminated with glowing optic fibers modulating to a custom musical score. Since reopening in April 2021 following a mandated closure due to the pandemic, the exhibit has been sold out weeks in advance. Says Sensorio Executive Director Paul Haught, "We are thrilled to announce this extension, so that all interested visitors can have the opportunity to experience this one-of-a-kind immersive exhibit." Sensorio enhances the experience with live entertainment by local musicians, and offers food and beverages including wine/beer, snacks and meals. A VIP experience option is also available, which includes exclusive access to a terrace overlooking *Field of Light*, with an Airstream bar, private tables and fire pits, and other amenities. **Bruce Munro: Light at Sensorio** tickets are available for timed entry on Thursday-Sunday evenings, now through January 2, 2022, at **Sensorio**, 4380 Highway 46 East, Paso Robles, California. For more information, the public may visit **SensorioPaso.com**.

When Sensorio opened with Bruce Munro's *Field of Light* in May 2019, it was an immediate hit, with thousands of visitors from around the globe flocking to experience this remarkable event. Sensorio's installation is larger in size than any other Munro exhibition internationally and is Munro's first US exhibit entirely powered by solar. It was singled out by *The New York Times* as #6 in its "52 Places to Go in 2020." It has also attracted national and international media attention, applauded for creating a "movement that infuses culture in valleys of viticulture," (*The New York Times*), and described as "the future of public wellness" (*Forbes*), and a "pilgrimage-worthy art escape" that is "meant to complement, never compete or detract, from the beauty of the landscape" (*Travel + Leisure*).

For *Light Towers*, Sensorio enlisted Munro to create a vibrant new illuminated work that pays tribute to the 200+ wineries and vineyards that blanket Paso Robles' beautiful rolling hills. *Light*

*Towers* is inspired by Munro's earlier work *Water-Towers*, originally created for and exhibited at the spectacular arcaded cloisters at Salisbury Cathedral in Wiltshire, England. For *Light Towers* at Sensorio, Munro has utilized wine bottles for the first time, as an homage to Paso Robles' abundant vineyards. The 69 towers are made from 17,388 wine bottles—252 bottles per tower—rising some seven feet high and illuminated in gently changing colors to visually represent the original composition "Rise and Shine," composed by Orlando Gough and performed by an international vocal ensemble.

**Sensorio** was created by Central Valley locals Ken and Bobbi Hunter as a destination for entertainment, exploration, meditation, adventure, and delight, honoring the natural topography of the landscape. It opened with *Bruce Munro: Field of Light*, which became an international sensation. Sensorio launched its second phase with the addition of *Light Towers*, an extension of the current exhibition that is included in the admission fee. Both exhibitions will continue through January 2, 2022 at Sensorio. Other exhibitions and buildings are planned for future openings at the site.

London-born **Bruce Munro** is known for large-scale light-based artworks inspired by his continuous study of natural light and his curiosity for shared human experiences. With a fine arts degree, early career training in the lighting design industry, and an inventive urge for reuse, Munro creates art that captures his responses to literature, music, science, and the world around him. His work has been commissioned by and displayed in special exhibitions in galleries, parks, grand estates, cathedrals, botanical gardens, and museums around the globe, including Longwood Gardens, PA; the Guggenheim Museum, NY; the Sharjah Museum of Art, UAE; Montalvo Arts Center, CA; Scottsdale Museum of Contemporary Art, AZ; Desert Botanical Garden, AZ; Jeju Light Art Festa, South Korea; the Colorado Springs Fine Arts Center, CO; Sotheby's *Beyond Limits* at Chatsworth; Victoria & Albert Museum, London; Waddesdon Manor, the Rothschild Collection, Buckinghamshire; and Salisbury Cathedral, among others. Artworks by Munro are held in the permanent collections of museums and public art collections worldwide including the Ashmolean Museum of Art and Archeology, Oxford; Cheekwood Botanical Garden and Art Museum, TN; and Texas Tech University Public Art.
